

KAMILA GOVORCIN

PANAL RECORDS - CHILE

Kamila Govorcin, DJ, producer and cofounder of Panal Records, is one of the most interesting names referring to techno or acid in the Chilean electronic scene.

With 5 years as a DJ, she has been able to be one of the most named DJs in the local underground movement. She has played in many of the best clubs and parties of Santiago and other Chilean cities, also taking part in raves such as Bosque Libre and La Tirana.

Her productions, unlike her techno acid DJ sets, fit into more mellow and trippy electronic music.

She has also produced ambient music, with which she has made her first live sets during this year 2017.
